

## JOB DESCRIPTION

APPENDIX C

Before completing this form, please read the BTP 'Guide to writing job descriptions for Police Staff roles' Appendix B to the SOP.

## A. POST DETAILS:

Job Title:	Senior Application Support Analyst (ISP)	Current Grade:	B003
Department:	Technology	Area:	Force Headquarters
Reports To:	Application Support Manager	No of Posts:	
Level of vetting:	MV	Post Number(s):	A101

B. PURPOSE OF THE POST: *Why the post exists and what it has to achieve*

This function helps to ensure the resilience and reliability of Force-critical IT solutions. The job holder will work closely with system owners to define strategy and assist in production of application roadmaps. They will assist in assembly of Business Cases to secure funding for new products and major system upgrades, help to obtain approval for Change Requests and implement them. This role safeguards and secures access to the information the Force depends on to make tactical and strategic decisions, providing maintenance and support services, directly to system users and service delivery functions. This typically involves research and response to logged issues, performance monitoring, advising/training users, devising corrections/workarounds for faults, making general or site-specific modifications, updating documentation, manipulating data and defining enhancements.

C. DIMENSIONS OF THE POST: *The key statistics associated with the post*

Financial- Direct or Non-Direct

Direct: responsibility for the management of a discretionary software support and development budget worth up to £100k p.a. Responsibility for the asset management and licence renewal of software products worth £500k with annual licence payments totaling £250k. Non-direct: responsible for providing best value advice and recommendations to support the development of the software

Staff Responsibilities- Direct or Non-Direct

Direct: None

Indirect: Occasional responsibility for supervising the work of 3rd party specialists assigned to particular support contracts or projects

Any Other Statistical Data

The role is responsible for supporting mission critical business applications serving over 5,000 users in a 24 x 7 environment

D. PRINCIPAL ACCOUNTABILITIES: *What the job is accountable for and required to deliver***Skills Framework for the Information Age**

*The Skills Framework for the Information Age (SF/A) provides a common reference model for the identification of the skills needed to develop effective Information Systems (IS) making use of Information Communications Technologies (ICT).*

## Business change

### Business change management

#### Requirements definition and management - Level 4: Enable:

- Facilitates scoping and business priority-setting for change initiatives of medium size and complexity.
- Contributes to selection of the most appropriate means of representing business requirements in the context of a specific change initiative, ensuring traceability back to source.
- Discovers and analyses requirements for fitness for purpose as well as adherence to business objectives and consistency, challenging positively as appropriate.
- Obtains formal agreement by stakeholders and recipients to scope and requirements and establishes a base-line on which delivery of a solution can commence.
- Manages requests for and the application of changes to base-lined requirements.
- Identifies the impact on business requirements of interim (eg migration) scenarios as well as the required end position.

## Relationship management

### Stakeholder relationship management - Level 5: Ensure, advise:

- Develops and maintains one or more defined communication channels and/or stakeholder groups, acting as a single point of contact.
- Gathers information from the customer to understand their needs (demand management) and detailed requirements.
- Facilitates open communication and discussion between stakeholders, using feedback to assess and promote understanding of need for future changes in services, products and systems.
- Agrees changes to be made and the planning and implementation of change.
- Maintains contact with the customer and stakeholders throughout to ensure satisfaction.
- Captures and disseminates technical and business information.

## Solution development and implementation

### Systems development

#### Programming/software development - Level 4: Enable:

- Designs, codes, tests, corrects and documents large and/or complex programs and program modifications from supplied specifications using agreed standards and tools, to achieve a well-engineered result.
- Takes part in reviews of own work and leads reviews of colleagues' work.

## Service management

### Service operation

#### Applications support - Level 5: Ensure, advise:

- Drafts and maintains procedures and documentation for applications support.
- Manages application enhancements to improve business performance.
- Ensures that all requests for support are dealt with according to set standards and procedures.

#### Problem management - Level 4: Enable:

- Initiates and monitors actions to investigate and resolve problems in systems and services.
- Assists with the implementation of agreed remedies and preventative measures.

## Procurement and management support

### Supply management

#### Supplier relationship management - Level 5: Ensure, advise:

- Maintains a broad understanding of the commercial IT environment, how the organisation sources, deploys and manages external partners and when it is appropriate to use in-house resources.
- Develops and manages contracts with suppliers to meet key performance indicators and agreed targets, taking account of information security of third parties.
- Is responsible for the liaison between the organisation and designated supplier(s).
- Carries out benchmarking and makes use of supplier performance data to ensure that supplier performance is properly monitored and regularly reviewed.
- Is responsible for the management and implementation of supplier service improvement actions and programmes.
- May be responsible for managing a discrete IT function or service in a multi-supplier environment.

#### E. LEVELS OF RESPONSIBILITY: *This is a SFIA Level 5 Role*

- **Autonomy** - Works under broad direction. Work is often self-initiated. Is fully accountable for meeting allocated technical and/or project/supervisory objectives. Establishes milestones and has a significant role in the delegation of responsibilities.
- **Influence** - Influences organisation, customers, suppliers, partners and peers on the contribution of own specialism. Builds appropriate and effective business relationships. Makes decisions which impact the success of assigned projects i.e. results, deadlines and budget. Has significant influence over the allocation and management of resources appropriate to given assignments.
- **Complexity** - Performs an extensive range and variety of complex technical and/or professional work activities. Undertakes work which requires the application of fundamental principles in a wide and often unpredictable range of contexts. Understands the relationship between own specialism and wider customer/organisational requirements.
- **Business Skills** - Advises on the available standards, methods, tools and applications relevant to own specialism and can make appropriate choices from alternatives. Analyses, designs, plans, executes and evaluates work to time, cost and quality targets. Assesses and evaluates risk. Communicates effectively, both formally and informally. Demonstrates leadership. Facilitates collaboration between stakeholders who have diverse objectives. Understands the relevance of own area of responsibility/specialism to the employing organisation. Takes customer requirements into account when making proposals. Takes initiative to keep skills up to date. Mentors colleagues. Maintains an awareness of developments in the industry. Analyses requirements and advises on scope and options for continuous operational improvement. Demonstrates creativity and innovation in applying solutions for the benefit of the customer/stakeholder. Takes account of relevant legislation.

#### F. CONTACT WITH OTHERS: *The frequent contacts the post holder has with others and for what purpose*

##### Internal

Contact with all internal customers and colleagues

##### External

Contact with 3rd party suppliers

**G. REQUIREMENTS:** *The skills, knowledge, experience, qualifications and training required to perform the job.*

**Qualifications and Training:**

Educated to degree level or equivalent experience

Accredited to ITIL Foundation Level or higher

**Experience:**

Extensive experience in an application analyst role supporting one or more core business applications, preferably in a 24x7 environment. Extensive experience of application management tools and techniques.

Good experience of liaising and working across multiple technical teams within the support environment.

**Knowledge:**

Good knowledge of application interfacing tools and techniques.

**Skills:**

### BTP Framework

Business	0	1	2	3	4
Accountability					
Customer Service					
Decision Making					
Effective Communications					
Initiative					
Interpersonal Relationships					
Teamworking					
Technical	0	1	2	3	4
MS Active Directory					
PL SQL					
Programming languages including T-SQL and ASP.NET					
SQL Developer (or similar GUI based DB viewer)					
SQL internet directory and middleware products					
SQL Management Studio					
SQL Server Data Base Administration					
UNIX Operating System					

### Business

#### Accountability - Level 3: Extensive Experience

- Provides feedback on individual and team performance.
- Establishes with others criteria on which success will be measured.
- Focuses and guides others in achieving business results.
- Communicates the parameters of delegated responsibility and decision-making authority within the team.

#### Customer Service - Level 3: Extensive Experience

- Explores and addresses the unidentified, underlying and long-term customer needs.
- Enhances customer service delivery systems and processes.
- Anticipates customers upcoming needs and concerns.
- Advocates on behalf of customers to more senior management, identifying approaches that meet customer needs as well as those of the organisation.

**Decision Making - Level 3: Extensive Experience**

- Considers the costs, benefits, risks, and chances for success, when making a decision.
- Seeks information about alternatives and chooses an option that meets a goal, solves a problem or avoids a risk.
- Approaches a complex task or problem by breaking it down into parts and considers each part in detail.
- Applies guidelines and procedures that leave considerable room for discretion and interpretation.
- Makes decisions by weighing several factors, some of which are partially defined and entail missing pieces of critical information.
- As needed, involves the right people in the decision making process.
- Balances competing priorities in reaching decisions.

**Effective Communications - Level 3: Extensive Experience**

- Tailors communication (e.g. content, style and medium) to diverse audiences.
- Utilises skill in presenting information, analysis, ideas and positions in a clear, succinct, accurate, convincing manner, as is appropriate with the audience.
- Reads cues from diverse listeners to assess when and how to change planned communication approach to effectively deliver message.
- Communicates equally effectively with all organisational levels.
- Understands others complex or underlying needs, motivations, emotions or concerns and communicates effectively despite the sensitivity of the situation.

**Initiative - Level 3: Extensive Experience**

- Maintains a level of energy and work activity to achieve goals.
- Actively seeks and identifies opportunities to contribute to and achieve goals. Suggests ways to achieve better results or add value beyond the current situation. Perseveres in seeking opportunities to advance organisational objectives in the near term. Identifies and acts on opportunities to improve organisational processes or outcomes.

**Interpersonal Relationships - Level 3: Extensive Experience**

- Diffuses confrontational situations; treats others with respect, patience, and consideration.
- Notices and accurately interprets what others are feeling, based on their word choices, voice tones, facial expressions and other nonverbal behaviour.
- Discusses subjects in a constructive manner, with all levels of staff.
- Demonstrates diplomacy by approaching others about sensitive issues in non-threatening ways.

**Team-working - Level 3: Extensive Experience**

- Listens to constructive feedback and incorporates suggestions to achieve collective objectives.
- Makes outstanding efforts to help other team members.
- Fosters team spirit.
- Ensures that all group members have an opportunity to contribute to group discussions.
- Helps build consensus among team members.

**Technical**

**MS Active Directory - Level 1: Basic Awareness**

**PL SQL - Level 2: Working Experience**

**Programming languages including T-SQL and ASP.NET - Level 2: Working Experience**

**SQL Developer (or similar GUI based DB viewer) - Level 3: Extensive Experience**

**SQL internet directory and middleware products - Level 3: Extensive Experience**

**SQL Management Studio - Level 2: Working Experience**

**SQL Server Data Base Administration - Level 2: Working Experience**

**UNIX Operating System - Level 2: Working Experience**
